Applications

STREAMLINE YOUR
GRANTS MANAGEMENT PROCESS

Applications platform keeps getting better! This innovative platform facilitates the entire grantmaking process and is designed as an optional enhancement to **Foundation Source Online®**. It makes it easy for foundations to accept and review online applications while also making the process convenient for applicants.

A Better Process /

- Easily accept online applications
- Eliminate time spent on long-shot requests
- Review applications in real time
- Confirm eligibility of charities
- Track every activity

Foundations can post their guidelines and funding criteria to cut down on the number of extraneous requests for funding. Because applications are submitted electronically, the foundation can efficiently organize and manage grant requests; centrally communicate about them; review them online; and easily generate data and reports. **Our secure, web-based system is available 24/7 and easily accessible from any device.**

A Better User Experience /

- User friendly
- Accessible to everyone at the same time
- Information organized for your needs
- Customized to your foundation

“Switching from paper files to the *Applications* platform has drastically improved our entire grant making program. The Board members are now able to review grant applications online and make comments for others to see which has streamlined the grantmaking decisions. Potential grantees have found the online application process to be easy to navigate with the ability to upload supporting documentation. This process has made our grantmaking process, from start to finish, more efficient.”
